

How to make the Cat in the Hat:

First, you get a paper plate and color around the ring black. Then you make the face (eyes, nose, whiskers, smile). Also you cut out black construction paper ears. You can substitute the whiskers with pipe cleaners if you would like. Finally, you make the hat, you cut out a hat shape and then you draw red and white strips and then you glue it on. And then you have a Cat and a Hat.

How to make the Lorax:

First, you get a paper plate and then paint it orange. When it is dry you glue a brown or orange pom pom on the plate. Next, you can either draw eyes or use googly eyes. And finally, you get some yellow construction paper and cut out eyebrows and a mustache (you can fringe the ends if you would like). And then you have a Lorax.
